VI TILE

Modular Animal Flooring

Vi Tile animal flooring is the culmination of research and development over a number of years.

This unique product offers superior foot support and comfort for all types of animals. Vi Tile's impressive benefits include:

- Modular system
- Flexible tile combinations for specific applications
- Lightweight
- Easy to install
- Efficient flushing system removes effluent quickly via animal movement.
- Standard and heavy duty tiles to suit specific applications.
- Polymer tiles are Thermo-Neutral, (adjusts rapidly to the animals body heat).
- Heavy-duty tiles are designed to support larger animals.
- Tiles do not corrode.
- Tiles can be interchanged for different applications at a later date
- Heavy-duty tile's non-skid surface design creates excellent traction for larger animals to safely negotiate.
- Tiles provide non-abrasive surfaces, which minimize discomfort for resting animals.
- Smooth edges eliminate injury to livestock.
- Arch profile allows for clearance to flush underneath tiles.

Single heavy-duty tile

15% Surcharge applies to any non-standard colour.
