IntelliTote™

Viscount Plastics:

Viscount Plastics is a market leader in the supply of Materials Handling products.

Viscount Plastics' long-standing relationship with the Pharmaceutical industry is due to a continual commitment to innovation, quality and supply. The newest addition to their Nally tote range, the Nally IntelliTote™ is yet another example of this commitment to excellence.

New Generation:

The Nally IntelliTote™ was designed in conjunction with a leading pharmaceutical company.

The tote provides a host of new generation features; its design satisfies supply chain and logistics current requirements and encompasses future technologies, addressing key demand of pick and pack packaging, data administration, private label procurement and inventory management.

Features:

Nally IntelliTote™ is fully integrated with automated warehousing solution systems, incorporates fully automated labelling and complies with the strict quality requirements necessitated by the Pharmaceutical Industry. To ensure optimum product quality is achieved the Nally IntelliTote™ is manufactured locally. The tote provides increased nesting capacity and is available in two sizes, 515mm x 391mm x 304mm and 515mm x 391mm x 150.5mm. The smaller of the two units fits 180 totes to a pallet, while the larger 90 totes to a pallet.

Environment:

RTP provides a far superior solution for the wholesale distribution of pharmaceuticals and healthcare product lines than their one-way cardboard counterpart. The Nally IntelliTote's™ tough high-density polyethylene construction far exceeds cardboards life cycle, making it the more favourable environmental and economical product. Returnable Transit Packaging equates to a reduction in raw materials, energy and water used for manufacture as well as final disposal. And users capital expenditure also

benefits, equating to savings to the **Environment - cont'**: bottom line. When the tote has reached the end of its long life cycle, it is 100% recyclable.

Innovation:

Viscount's key focus on innovation incorporates providing superior environmental solutions. The Nally IntelliTote™ improves upon the previous tote systems currently available, with reduced manufacturing cycle time and product weight, in line with Australian Packaging Covenant expectations. It provides a superior solution at reduced carbon cost. The push for smarter, faster and more effective product is a clear directive of the Pharmaceutical Industry.

Viscount Plastic's commitment to innovation continues and is proud to present to you the new Nally IntelliTote™.

IntelliTote™ 45Ltr. Model, Lid & 22Ltr. Model & Lid Stacked

Nominal Dimensions

Ext Dimensions (mm):

L	W	H
IntelliTote™ 45Ltr. Model		
515	391	304
IntelliTote™ 22Ltr. Model		
515	391	150.5
IntelliTote™ Lid		
515	390	31

Nesting Height (mm):

IntelliTote™ 45Ltr. Model	120
IntelliTote™ 22Ltr. Model	120
IntelliTote™ Lid	17

Weight:

IntelliTote™ 45Ltr. Model	2.3kg
IntelliTote™ 22Ltr. Model	1.5kg
IntelliTote™ Lid	0.7kg

Other Specs:

Stack:	Yes	Cross:	No
Resin:	HDPE	Stock:	Yes
Colour:	Specified by customer		

Pallet Quantities:

IntelliTote™ 45Ltr. Model	90 per pallet
IntelliTote™ 22Ltr. Model	180 per pallet
IntelliTote™ Lid	600 per pallet

Note: Dimensions are nominal (tolerances of up to +/- 1% should be anticipated).

Crate Design Features: Unique moulded-in front label holder, recessed areas for barcode sticker, can be stacked with or without lid, nestable, changeable inserts for customer logo and text.

Label Holder: 1 on long side (front only). Dynamic clear PC window

Engraved Inserts: Provision for one on each short side

Interworkability: Able to be stacked with compatible range products (IntelliTote™ 45Ltr. and 22Ltr. Model).

Temperature Performance: Crates manufactured from high density polyethylene (temperature range -20°C to 100°C). The above temperature performance limits are dependent upon application, crate design and top load requirements.

Environmental Performance: 100% Recyclable at end of service life.

Cleanability: Able to be commercial washed.

Other Identification: DOM, Manufacture Details, Part Numbers, Recycling Logo

RFID Asset Tracking: Provision on long wall (back of crate).

Barcode Tracking: Provision for 1 per long wall.

Specifications:

The IntelliTote™ range is manufactured by a high pressure injection moulding process.

Crate Performance Criteria, Safe Load Limits
IntelliTote™ 45Ltr. Model

[IntelliTote™ 22Ltr. Model](#)

Standard Crate Weight Limit: 15kg / 10kg

Static Storage (stacked 8 high): 120kg / 100kg

Actual Capacity to top of crate: 44Ltr. / 22Ltr.
